

**CITY OF ASHEVILLE - STREETS DIVISION
SPECIAL EVENT TRAFFIC CONE & BARRICADE RENTAL ORDER**

Traffic control devices are mandatory for closing streets, lanes, sidewalks and reserving parking spaces in the City of Asheville. Traffic control devices (i.e., barricades and traffic cones) are made available for special events by the City of Asheville's Streets Division. Traffic control devices can be leased to events when an Outdoor Special Event Permit is obtained via the City of Asheville's Outdoor Events Specialist and approved by the Transportation & Engineering Dept.

It is the responsibility of the event organizer to order and properly place all traffic control equipment (as outlined in the **MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES**) prior to the event and return the device(s) to the City after the event ends.
